## **2017 CHEMICAL USAGE FOR COTTON, SOYBEANS, AND WHEAT**

State-level estimates for 2017 chemical usage for cotton, soybeans, durum wheat, spring wheat, and winter wheat are now available, according to the USDA's National Agricultural Statistics Service. The 2017 Agricultural Chemical Use Survey of cotton, soybean, and wheat producers collected data about fertilizer and pesticide use, as well as pest management practices in growing corn and potatoes. The estimates can be accessed using the QuickStats online database, found here: [http://www.nass.usda.gov/Quick\\_Stats/](http://www.nass.usda.gov/Quick_Stats/)

NASS provides accurate, timely, and useful statistics in service to U.S. agriculture. We invite you to provide occasional feedback on our products and services. Sign up at <http://usda.mannlib.cornell.edu/subscriptions> and look for "NASS Data User Community."
